

Situational Coaching®

One-Day Workshop | September 6, 2019 | Singapore

Unleashing Performance

In today's fast-paced global marketplace, managers must not only lead, but actively coach employees. Effective coaching promotes alignment, performance excellence and individual resilience, allowing organizations to excel within an environment of continuous change and gain a competitive edge.

Situational Coaching® is a practice-rich program designed to enable managers to consistently apply effective Situational Leadership® behaviors during performance-related coaching discussions. This workshop provides managers with the tools to unlock and maximize the engagement and performance of their teams, building their individual and collective capacity for higher levels of current and future performance.

In addition to multiple opportunities for learners to interpret and discuss complex behaviors via video case study analysis, there is an equal number of activities dedicated to practicing the application of Situational Leadership® in coaching situations. During these practice sessions, participants receive structured feedback on the tone, articulation of behaviorally specific observations and communication of tangible next steps to drive performance.

Objectives

Upon completion of this workshop, participants should be able to:

- Identify a specific task on which to focus based on direct observations and indirect behavioral indicators.
- Assess coachee current Performance Readiness for a specific task.
- Demonstrate Situational Coaching® behaviors that are aligned to the needs of the coachee based on their task-specific Performance Readiness®.
- Use the OFTEN Discussion Framework to conduct effective in-the-moment and planned coaching conversations on a continual basis.
- Implement a Situational Leadership® application plan to manage ongoing coachee performance needs.
